

TEN OF THE BEST ULTIMATE CAR SHOW

Saturday 27th and Sunday 28th July 2024 Elvington Airfield

Rules and format of the Event

General Regulations - All to read – Bring these documents with you to the event.

All competitors, guests and spectators hereby agree to accept the rules and terms of the event as set out and must always abide by them whilst on site as a condition of entry to the event. Anyone not complying may be refused entry or asked to leave site. No refunds will be given in any circumstances due to bad weather or the cancellation of the event.

No new competitors/rwyb entries will be taken on the Sunday of the event itself. A condition of entry includes agreement for Straightliners Ltd to use video/photographic images and interviews for their own purposes, including marketing and promotion. Copyright remains with Straightliners Ltd for all future use. Drivers must sign and hand in the attached forms at the Control cabin during signing on. Competitors will be given a set of 4 stickers to identify their car for timing purposes. These stickers to always remain in clear view. Four competitor number stickers must be placed on **each** vehicle. The back number can be put on the boot of the car as an alternative to the registration plate, but **not** on the windscreen. Failure to comply may result in non-timed runs. The organisers will **NOT** be held responsible for any non-timed Runs due to competitor numbers being illegible or misplaced.

Your competitor or pit lane pass must be clearly on show to gain access to the pit lane on the morning of the event. The pass should be stuck on the inside of your front windscreen.

Friends and family arriving with competitors in their/other vehicles must park in public parking and pay the admission fee at the gate if without tickets/wristbands. Two entry wristbands are supplied as part of your Sunday entry, one of which is for the driver. If camping, you must also show your camping pass in your front windscreen.

Please note that motorsport can be dangerous. Despite Straightliners Ltd taking all reasonable precautions, unavoidable accidents can happen. In respect of these, you are present at your own risk.

Entry to site/Registration Information for Competitors

Saturday 27th July

Competitors may attend the site between **8am-5pm** to sign on, scrutineer their car/tyres, do a noise test and to do practice runs. Such vehicles are then to be left on site after scrutineering which is only available between these times. All competitors are encouraged to attend during that period, as you will then avoid having to queue on Sunday morning to be checked. Only Competitors and their pit crew are allowed to camp overnight alongside their vehicle in pit lane. General camping is available for the public on site. Site traffic movement is to be kept to a minimum once on site. (Security on site all night).

Sunday 28th July

Gates open between **7.30am-9am** only for competitors/passengers/support vehicles. **All competitors must report with their driving license, to the Control portacabin opposite the handling circuit entrance for signing on from 8am.** All competitors **must** be signed on and ready for the **10.15am driver briefing to be held at the start of the Dragstrip.** Should you miss the briefing you will not be allowed to compete without seeking approval in person from the clerk of the Course, Trevor Duckworth.

Scrutineering and noise testing will take place near the portacabin. No speeding on site anywhere. Only the registered drivers can drive their vehicle during the day. No other driver is allowed to race your vehicle. All registered drivers will be issued with a wristband at signing on. Official support vehicles/trailers with the correct pit lane pass may park on the grass area behind the competitor's car, not on the concrete pit lane. Competitors must

ensure their car is parked back tidily in their own designated area without blocking the queuing lanes when you are not actually racing or queuing.

Spectating - Public 27th/28th July

Gates open from 9.00am for all public/club members for spectating. Designated spectator car parking is provided and must be used. Marshals will be covering the car parks during the day. All people on site will be expected to behave and park responsibly. Anyone not doing so will be ejected from the site. Anyone wandering from the designated spectator viewing areas will first be warned, then removed from site if necessary. Racing will stop until such people are returned to a safe spectating area. An admission fee per person will be payable at the gate, in cash/card on the day for anyone without pre-paid entry tickets/wristband. 16 and under free with accompanying adult.

Venue Information and location

Serviced toilets will be provided in all main public areas. Trade stands and displays will be available. Event catering is provided on site, along with Ambulance, fire and safety personnel. Results are available throughout the day.

Elvington airfield is situated 7 miles south-east of York and 2 miles north-west of Elvington village. From the A64 it is signposted as the "Yorkshire Air Museum" YO41 4AU **Please be signed on by 10.15am.**

Refunds

Only 50% refunds are available from 2 weeks to 1 week before the event, after this – no refund.

Any Queries/problems on the day:

Contact the nearest Marshall who will advise or direct you to the control point if required.

Cars- Rules & Regulations – READ AND ABIDE BY THESE RULES

All road class cars A, B or C must have:

Two front seats fitted and properly secured i.e., Driver and passenger seat. (Interior carpets and headlining can be stripped out, but cars must retain original bulkhead/firewalls with all holes properly plugged and sealed.) O.E seatbelts may be used for road cars which run **slower** than 9.5s 1/4m ET. (For sub 9.5s 1/4m cars a 4 or 6 point harness must be used along with an approved full roll cage). A working dashboard must be retained to incorporate a speedometer. Electrical safety cut-out switches and a plumbed in fire extinguisher are also mandatory for sub 9.5s 1/4m cars but optional for slower cars. It's also recommended that a hand fire extinguisher is fitted in a secure manner and in an accessible position.

NO WRINKLE WALL TYRES ALLOWED IN THESE ROAD CAR CLASSES!

Road cars must have fully working headlights, indicators, horn, handbrake, front windscreen wipers, throttle return spring, securely fixed battery. (One working headlight may be removed for cooling purposes on the day.) Cars must retain a normal road going appearance and use. Road class cars must also be capable of competing fully and effectively to our judgment on all 3 events to be allowed in Road class, this factor may be judged at our discretion and our decision is final in all respects.

Nitrous Oxide/Fuel

Nitrous refills on site are to be conducted in the specified Nitrous/fuelling zone and **not** in general pit lane. Do not bring large refill cylinders of nitrous to site as you will be barred from using them. Fuels must be stored in approved METAL jerry cans in the designated fuel area only. Plastic fuel cans are not acceptable.

Tyres

Must be "road legal", with road legal tread pattern and DOT or E Marked, also Road legal minimum tread depth must be always maintained during the competition (1.6mm). Illegal or dangerous tyres will be excluded. Should it rain on the day the scrutineers will also decide which tyres may not be safe to run on in the prevailing conditions.

Acceptable Tyre types

In general any road legal Tyre that is E Marked is allowed for general classes A, B or C. The following DOT marked trackday tyres are also acceptable - Nitto 555's, Toyo 888s, Dunlop DJ01 and new equivalent, Yokohama Advan A048R, BF Goodrich Comp TA, Michelin Pilot Sport, Mickey Thompson ET Street **Radials** (like Nitto 555s). Any Tyre currently listed in the MSA Blue Book 2011 list 1a and 1b is also acceptable. We may add/allow other similar tyres at our discretion, but our decision is final.

Full Slick tyres and wrinkle walls are NOT allowed in Classes A, B or C

Trevor Duckworth (clerk of course) decision to be final in all cases.

We are allowing the use of the following types of tyres for dragway use only.

Hoosier drag radials and Mickey Thompson 'ET Streets'. Competitors wishing to compete on the handling circuit will not be allowed to use these two tyre types. Any competitor caught using these types of tyres on the handling circuit will be **disqualified** from the event.

Safety

All sub 9.5s 1/4m competitors must wear an approved fireproof race suit, gloves and helmet. This also applies if you achieve a sub 9.5s 1/4m run for the first time on the day. Cars slower than 9.5s 1/4m- driver must wear a helmet and have fully covered arms/legs. (Open face helmets are acceptable). Insurance and personal liability cover is not included for competitors or their cars, you are therefore advised to arrange your own cover if required. This is a timed event, and you should notify your insurers to check if covered. Motoring events can be dangerous and as a condition of entry you are present at your own risk.

Noise Regulations

General cars - 101db static measured at 0.5m at 45degrees from the exhaust tailpipe, taken at 3/4max rpm. If a bung is required to make this noise limit, then it must be used all day.

Actual Event Times/Description

Please note these events are to be run on a friendly, fun, SAFE basis. All competitors should read and comply with the rules and remember that these events are **INVITE** only; you may not be asked back if your on-site behavior is unacceptable. See the separate timetable included.

Saturday 27th July 2024

All Sunday entrants can run on Saturday as practice. The handling circuit will be changed on Sunday for the competition.

Sunday 28th July 2024

Events: 1/4m Drag Racing and Top Speed- Main runway 10.30am-4.45pm (times may change subject to events/weather on the day)

This is run with two cars at a time, head-to-head, in separate lanes. Timing gear and staging lights are used, with the elapsed time and speed taken at 1/4m distance from the start. There will also be 60 foot times available in both lanes. The right hand drag lane terminates just after this 1/4m distance, and the car in that lane must then immediately slow, turn right onto the return runway and come back to pit lane. **You must NOT continue down the runway to the top speed trap area from this right-hand lane.** Anyone disregarding these instructions will be disqualified. **You must not turn around on this runway!**

If you are in the **left-hand 1/4m lane** you can do both a 1/4m and top speed attempt during the same run. If you wish to do a top speed run, you should indicate this to the start line marshal as you enter the staging area prior to your run. If possible, put your hazard lights on to say that you wish to do a top speed run. Complete your 1/4m run as normal from this lane and continue accelerating down the runway, before passing a final speed trap at 1km distance. You must then brake back down to a low speed before finally turning right at the end of the main runway. This leads you back onto the return runway back to pit lane. The top speed trap (1km) is full runway width, with approximately 1/2m braking distance available before the final bend onto the return runway. You must then observe the **30mph max speed** on all the return runway roads and **5mph in queuing areas**. Keep to the right-hand side of the return runway as you drive back, as you are not allowed to drive in the central section. Timing slips will be recorded for all runs and used for verification. The main computer records every individual run taken throughout the day, on all 3 events. Times will be available for all 3 events, collect them from the start line areas. Timing tickets will show your times and speeds, your name and position in class as at the time of you doing that run, and the person leading the class with the leading time.

Handling Circuit 10.30am-15:30pm (times may change subject to events/weather on the day)

Throughout the day a separate handling course will be available. This will be different to the Saturday circuit. Any competitor repeatedly going off and destroying the circuit set up through poor driving or abuse will be prevented from finishing their laps. Should your car slide fully off/outside the coned circuit during the lap then that time is lost, and the lap will not be credited back. After completing your timed run, you will be directed back into the main pit lane via the return barriers/return road, you may then return to the main queuing lanes. If your run is halted part way through due to the car in front (safe gap used) spinning out, then you may rejoin the head of the queue to restart that run. The number of timed runs will be 5 per competitor but if time allows before qualifying has

finished it may be extended to 6 runs per competitor. Timed runs will cease at 3pm when the top 5 cars will get the chance to do another 2 runs each. After this time, cars may run for fun only on the handling circuit if time permits before the final shootout. This is a one-lap elimination with the fastest lap time winning.

Wet weather

If the track is wet, we will have a practice period where cars can run. These runs will not count as one of the 5 runs.

If it is wet and looks like it will be wet all day, then the Clerk of the Course will declare a wet race.

If there is an unscheduled delay, the number of runs to count will be reduced as we need to keep to the timetables.

Drag Strip and Top Speeds 10.30am-3.45pm (times may change subject to events/weather on the day)

The drag classes will be run on an open qualifying basis from 10.30am to 3.30pm. After that time the top 4 cars in each class will then be selected, and will be drawn to race each other, first across the line, loser eliminated. **The top 4 in each class should make their way to the start line area and park up ready for 4.15pm.** Times do not matter at this point, it's first across the line! All class leaders will be posted /called up after 3.45pm approx. If you are not ready or not in line for the run when called up after 4.15pm you **WILL** be eliminated. There are no second chances! After this time, cars may run for fun only on the drag strip if time permits.

Points Scoring

See attached list.

Please note additional trophies and prizes may be awarded from other event sponsors.

In the event of a tie for places the next best time/fastest speed may be used to determine overall standing.

Other Information

Filming/cameras/video

Professional camera teams may be onsite filming the event. As a condition of entry all competitors agree to our terms and conditions regarding filming and image rights. Competitors must allow unhindered camera access to their vehicle if so requested. This also includes fitting the in-car cameras before any filming runs. There is no restriction on people using their own in-car camcorders, if securely mounted using proper clamps at all times. There are however very strict terms and conditions regarding any public broadcast, reproduction or sale of such footage, and you should familiarise yourself with the terms and conditions on the image rights disclaimer, which must be completed at sign on.

Please note that no passengers are allowed in any competing vehicles at ANY time.

Car Clubs

All participating clubs/groups are encouraged to advertise the club/group name by means of banners, boards and displays. Flags will be permitted only if securely fixed. Only official Club merchandise may be sold on the day from club areas. Any display banners etc must be fixed securely and be safe, as responsibility lies with the clubs themselves. Any tools/equipment or fuel is brought onto site at your own risk and should be always stored safely.

Trade Displays

No unauthorised trade displays/stalls or marquees will be allowed on site, contact us in advance if you wish to have a trade display area. Only the officially entered "Tuner/Trade" competitors will be listed as such in all the event results and information/film footage. Public liability insurance cover is required on the day for trade displays.

Trophies/Prizes

All results will be collated during the day. Final collation will be after all shoot outs have been completed, and any queries/discrepancies or objections should be noted to race control before this time. Timing slips may be issued to competitors throughout the day for them to keep, but each and every run is logged on to the main computer system. Any objections about any competitor should be lodged immediately with the control/organisers. No objections can be lodged after the event closes. Our decision is final in all respects. All Trophies and awards will be presented at approx 5.15pm.

General control

The marshals, timing, security/safety crew and the event in general are to be run from the main control unit located next to the start line area on the drag strip. In the event of any problems or queries on the day, please inform your group representative in the first instance, who should then report to the main control centre and ask to speak to Trevor Duckworth, or in an emergency contact a nearby marshal. The organisers reserve the right to amend or alter the format, event times, detail and rules of the event as required.

Driver Checklist- bring the following on the day or you will not be able to race!!!

Road class competitors- A, B or C class

Driving license

Helmet

Approved fireproof Race suit/gloves/boots if quicker than 9.5s 1/4m (proven or on day). Otherwise, long-sleeved clothing and covered legs are required for cars slower than 9.5s

Entry tickets will be charged at the on the gate price per person if you/passengers do not have your tickets.

Exhaust bungs if required to pass noise test - must be used through day - you will be disqualified if you are over the noise limits in place. No refunds will be given for such situations.

All drivers must sign on before 10:15am on Sunday and display their competitor stickers correctly on vehicles as described above. Please ensure you leave someone with your car in the pit lane to unlock it for the scrutineers between 8am-11am. If your car is not scrutineered, you cannot race.
